

Premier HCL

Premier Digestive Support

Premier HCL can help address a common digestive deficiency: low hydrochloric acid (HCl). HCl is the main substance found in stomach acid. It breaks down protein and helps the body absorb nutrients like calcium, iron, folic acid, vitamin B6, and vitamin B12.

As we get older, our bodies start to produce less HCl, which makes our stomach acid less effective in digesting food and using nutrients, even when consuming a healthy diet. Low levels of HCl are also found in people who experience chronic stress, those who take antacid tablets or proton-pump inhibitors, and with diets that are low in protein or high in refined and processed carbs.

Common signs that your stomach acid may need an HCl boost include chronic belching, stomach aches, bloating, gas, or gastric burning. Additionally, despite the acidic feeling it causes, acid reflux often results from too little stomach acid, not too much.

Over time, ineffective stomach acid can interfere with bone health and contribute to loss of muscle mass, poor wound healing, blood sugar instability, leaky gut, food allergies, and even depression.

Premier HCL delivers 500 milligrams of potent betaine hydrochloride, a compound that acts as a supplemental source of HCl. Betaine hydrochloride supports stomach acid secretion and restores the natural acidic environment your body needs to properly digest proteins and absorb nutrients.*

Benefits

- Supports stomach acid secretion.*
- Restores proper stomach pH balance.*
- Promotes a healthy and efficient digestive process.*

Highlights

- Delivers 500 milligrams of powerful betaine hydrochloride, commonly recommended by doctors as a supplemental source of hydrochloric acid (HCl).
- Includes quality-tested and potency-verified nutrients, without added magnesium stearate.
- Gluten-free, pure vegan, and Kosher-certified.

Recommended Use

- Take 1 capsule of Premier HCL after each meal, especially cooked meals, 3 times daily or as directed by a health professional.
- Often combined with Premier HCL Activator, which features vegetarian-based pepsin and a synergistic blend of potent aromatic spices, to maximize betaine hydrochloride's digestive impact.
