

RenaVen™

Premier Kidney
Support

RenaVen™ is a naturally derived blend of fermented cordyceps and organic botanicals, formulated to work together in promoting optimal kidney health. As your body's natural filters, your kidneys help dictate the health of your blood, which carries nutrients and oxygen to all your organs and tissues. In other words, your kidney health is a cornerstone of your overall wellness!

RenaVen™ delivers a harmonic blend of ingredients that promote optimal kidney function.* Cordyceps (*Cordyceps sinensis*) are a mushroom-like fungus that have been used in Chinese medicine for thousands of years to support both lung and kidney function. Modern research indicates that cordyceps may help protect and potentially stabilize kidney function. We ferment the

nutrient-dense mycelia (the vegetative part of the fungus) to make all its complex, health-modulating compounds bioavailable for absorption into your system.

The vitality-promoting effects of fermented cordyceps are compounded by two key botanical blends for broad-spectrum kidney support: Rena-Prime™ and Rena-Bolic Support™. Rena-Prime™ includes antimicrobial cranberry, pH balancing and urine alkalizing alfalfa and kale, and hydrangea root to help dissolve mineral deposits that contribute to kidney stones.* Rena-Bolic Support™ includes a blend of botanicals that includes *Rhodiola rosea* root extract, parsley leaf, and burdock root, all of which fortify the kidneys through their potent antioxidant-like properties.*

Benefits

- Supports healthy kidney function by improving removal of water-soluble toxins.*
- May help dissolve mineral deposits that contribute to kidney stones by balancing urinary pH.*
- Facilitates antioxidant activity, which reduces cellular stress and supports a healthy inflammatory response.*

Botanical Support

Highlights

- Features kidney-nourishing fermented cordyceps (a mushroom-like fungus).
- Includes organically cultivated botanicals: cranberry, alfalfa, kale, parsley, blueberry, and more.
- Contains only non-GMO, plant-based ingredients.
- Rigorously tested for undesirable additives, pathogens, and heavy metals.

Recommended Use

- Use as directed by your practitioner or take one capsule 3 times daily.
